#### **Field Trip**

Our August meeting was a field trip for a private viewing of the Helen Williams Drutt Collection of Modern Jewelry at MFAH. Thanks to Richard Hinson, for arranging this unique and fascinating event.

For decades, Helen collected jewelry created by international artists using traditional and non-traditional materials. Anna Walker, Cindi Strauss's Assistant and the Windgate Foundation Curatorial Fellow for Contemporary Craft, gave generously of her time to show us selected portions of the large collection. Members were treated to views of art jewelry in an astonishing variety of materials and designs by a number of artists whom Helen represented in her gallery over several decades. Anna described the materials and history of different works, and gave biographical details on the artists.

Until next month: May all your scores break perfectly!
