Program Activity

Glass Gathering purchased \$200 worth of fused glass holiday ornament kits from Harmony Stained Glass. Members at the meeting volunteered their time to assemble the ornaments and Harmony will donate firing costs for the ornaments. They will then be donated to the upcoming Baylor College of Medicine Art Show. Proceeds from this show benefit the Texas Children's Hospital Cancer and Hematology Arts Program which serves children battling these diseases. Thanks to President Rene Armstrong for suggesting the idea and taking the ornaments to the show.

Until next month: May all your scores break perfectly!
